LinkedIn:  <https://www.linkedin.com/in/safalbhatta>

Computer Engineering student passionate about Artificial Intelligence, Machine Learning, Deep Learning, Computer Vision, and Full Stack Web Development. Interested in building real-world AI applications and scalable web systems. Always eager to learn and improve problem-solving skills.

EDUCATION

Year	Degree	Institute	Result
2022-2026	B.E. Computer Engineering	Everest Engineering College, Sanepa	Running
2021	+2 Science	Valmiki Shiksha Sadan, Bharatpur	GPA: 3.2
2020	SEE	Sanskriti Sadan Secondary School	GPA: 3.95

TECHNICAL SKILLS

Programming: Python, JavaScript, C, C++

Web Development: HTML, CSS, React, Node.js

AI / ML: Machine Learning, Deep Learning, CNN, OpenCV

Tools: Git, GitHub, VS Code, Linux

PROJECTS

Skin Disease Classification System

AI / Deep Learning

- CNN-based model for 4-class skin disease classification
- Built using Python and deep learning techniques
- Focused on medical image analysis

Prompt Analyzer

Computer Vision / OpenCV

- Tool that analyzes prompts and gives improvement score
- Uses image processing and evaluation logic

GIF Fusion Tool

Full Stack (React + Node.js)

- Web app for creating and editing animated GIFs
- Built with modern full stack technologies

ImageToolify

Web Tool / JavaScript

- Image compression, PDF creation, optimization tool
- Simple and clean UI-based utility app

EXPERIENCE

- Personal Projects Developer (AI + Web Development)
- Beginner Open Source Contributor
